If any learners are identified as at risk, the tutor discusses with the Coordinator, and an appropriate support strategy is agreed that provides the learner with appropriate guidance concerning relevant support services.  Depending on the level of risk, the Coordinator will inform the Director of Studies and an appropriate support process is determined and actioned. ## Outcome 8: Responding to the distinct wellbeing and safety needs of international tertiary learners

Signatories must ensure that practices under this code respond effectively to the distinct wellbeing and safety needs of their diverse international tertiary learners

Phase in the gap analysis process:		
Key required processes	Sources of evidence of our compliance	Comments
Process: Signatories must engage with diverse international tertiary learners to understand their wellbeing and safety needs under the outcomes of Parts 3, 4 and 5 of this code.  Part 3	NZALI does not recruit international students to come to study in New Zealand on a student visa. The only 'international student' we could conceivably have would be a learner on one of our micro-credential courses who is not a New Zealand citizen or permanent resident, and yet is legally present in New Zealand (for example, on a work visa). Outcome 1: A learner wellbeing and safety system  Process 1: Strategic goals and strategic plans  Process 2: Self review of learner wellbeing and safety practices  Process 3: Publication requirements  Process 4: Responsive wellbeing and safety systems	Currently we do not have any non-New Zealand citizen or permanent resident learners enrolled.  However, NZALI, in a previous incarnation, <i>did</i> recruit international students to come to study in New Zealand on student visas, so we are familiar with the distinct wellbeing and safety needs of diverse international tertiary learners.	
Outcome 2: Learner voice Process 1: Learner voice Process 2: Learner complaints Process 3: Compliance with the Dispute Resolution Scheme  Part 4	Our processes under Parts 3 and 4 of this code (Part 5 is not applicable) have been designed to accommodate both domestic and international students, and no special comments are necessary here. Refer to Outcomes 1 – 4 above, under Parts 3 and 4.

### Outcome 9: Prospective international tertiary learners are well informed

Signatories ensure that prospective international tertiary learners receive clear, accessible, accurate and sufficient information, and make informed choices about the study and services a signatory provides before they begin their study.

Guidance for students around pathways for further study, employment, and (for international students) residency, is available upon request. ### Outcome 10: Offer, enrolment, contracts, insurance, and visa

Signatories must have practices for enabling learners to make well-informed enrolment decisions in relation to the educational outcomes being sought by the learner and ensuring that all relevant parties are clear about their interests and obligations prior to entering into the enrolment contract.

Phase in the gap analysis process:		
Key required processes	Sources of evidence of our compliance	Comments
Process 1: Offer of educational instruction  Signatories must ensure that the educational instruction offered to international tertiary learners is in accordance with the Act and is appropriate for international tertiary learners' expectations, English language proficiency, academic ability, and the educational outcomes being sought.	Currently we do not recruit international students, and we have no non-New Zealand citizen or permanent resident students enrolled.  However, our processes have all been designed with both domestic and 'international' students in mind, and the educational instruction offered to 'international' students would be in accordance with the Act, and would be appropriate for such students. Process 2: Information to be provided before entering contract  (1) Signatories must have practices that ensure prospective international tertiary learners (or the parents or legal guardian of international students under 18 years) receive, as a minimum, accurate, timely and tailored information about the following before entering into a contract with the learner –  (a) the most recent results of their evaluations by education quality assurance agencies; and (b) quality improvement or compliance notices and conditions imposed under the Act that the code administrator directs must be disclosed to prospective international tertiary learners; and (c) the education provided and its outcome, for example,	Although we do not recruit international students, and we have no non-New Zealand citizen or permanent resident students enrolled, our template Offer of Place, Acceptance, and Contract document covers all of the requirements of this process.
